Suwon Convention Center

엠블럼 소개

2025 International Symposium Ambassador

(사)대한작업치료사협회 시그널 로고를 대칭으로 나비모양을 표현하여 심포지엄을 통해 모든 사람들에게 희망을 주는 의미를 담았습니다. 수원성곽 이미지에 단청을 입혀 동양의 멋과 개최 장소를 표현 했습니다.

The Korean Association of Occupational Therapist's signal logo is depicted as a butterfly shape, symbolizing the symposium's mission to bring hope to all. The Suwon Fortress image is adorned with dancheong (traditional Korean painted decoration), embodying Eastern elegance and symbolizing Suwon, the host city.

기념배지 소개

Korean traditional guardian character & Emblem

기념배지는 심포지엄 엠블럼과 수원화성 '장안문' 지붕 위에 있는 잡상 중 하나인 '인물상'을 모티브로 디자인 했습니다.

잡상은 궁궐이나 성곽 지붕위에 올려놓는 조형물로 익살스러운 형상으로 액운을 막는 역할을 합니다.

Image of a Japsang(The figures or animal-shaped sculptures adorning the eaves of palace roofs) on the roof of Suwon Hwaseong.

This design is inspired by the 'Human Figure Statue,' one of the Japsang placed atop the roof of Suwon Hwaseong's 'Jang'an Gate.' Japsang are sculptural ornaments placed on palace or fortress roofs, featuring comical forms to ward off misfortune.

환영사

존경하는 내외 귀빈과 참가자 여러분.

사단법인 대한작업치료사협회를 대표하여 ‘2025 국제심포지엄(KISOT 2025)’에 함께해 주신 모든 분들을 진심으로 환영합니다.

특히 이 자리를 빛내주신 세계작업치료연맹(WFOT) Samantha Shann 회장님과 아시아·태평양작업치료지역그룹(APOTRG)의 Stella Cheng회장님께 깊은 감사의 말씀을 드립니다. 두 분의 참여는 이번 심포지엄이 국제적 신뢰와 협력 속에서 진행되고 있음을 보여주는 큰 의미가 있습니다.

이번 심포지엄은 “Best Practice for Empowering Lives: From ER to Community”라는 주제로, 응급의료에서 지역사회 통합돌봄에 이르기까지 작업치료의 전문성과 역할을 함께 나누는 뜻깊은 자리입니다. 이는 국제 교류에 한 걸음 더 다가서며, 한국 작업치료가 세계와 함께 미래로 나아가는 출발점이 될 것입니다.

또한 대만·일본·중국을 비롯한 아시아 각국 전문가들과 함께하는 특별 세션, 세미나, 학생 워크숍과 포럼을 통해 학문적 성과를 나누는 동시에 미래세대를 위한 성장의 기회를 만들고, 아시아 지역의 국제적 협력과 공동 발전을 도모하고자 합니다.

무엇보다 이번 심포지엄 준비를 이끌어주신 김지현 준비위원장님과 준비위원회의 헌신과 노고에 깊은 감사를 드립니다. 여러분의 헌신은 한국 작업치료의 학문적 위상과 국제적 신뢰를 높이는 소중한 토대가 되었습니다.

아울러 한국 보건의료와 재활·작업치료 발전을 위해 큰 역할을 해주신 국회의원 김윤 의원님께 감사패를 전달하며, 그 뜻을 함께 나누고자 합니다.

이번 국제심포지엄이 국내외 전문가들에게 영감을 주고, 작업치료의 발전과 세계적 협력을 이끄는 중요한 이정표가 되기를 기대합니다. 귀한 발걸음을 해주신 모든 분들께 다시 한 번 진심으로 감사드립니다.

감사합니다.

이지은
제13대 (사)대한작업치료사협회
협회장

Dear distinguished guests and participants.

On behalf of the Korean Association of Occupational Therapists, it is my great honor to warmly welcome all of you to the 2025 International Symposium (KISOT 2025).

In particular, I would like to express my deepest appreciation to Ms. Samantha Shann, President of the World Federation of Occupational Therapists (WFOT), and Ms. Stella Cheng, President of the Asia-Pacific Occupational Therapy Research Group (APOTRG), for gracing this event with their presence. Their participation holds great significance, symbolizing the spirit of international trust and collaboration that underpins this symposium.

Under the theme “Best Practice for Empowering Lives: From ER to Community,” this symposium provides a meaningful opportunity to explore and share the expertise and evolving roles of occupational therapy—from emergency medical care to integrated community-based rehabilitation.

It also marks an important step toward strengthening global exchange and advancing Korean occupational therapy alongside the international community. Through special sessions, seminars, student workshops, and expert forums with distinguished participants from Taiwan, Japan, China, and other Asian countries, we aim to share academic achievements, foster growth for future generations, and promote international cooperation and joint development throughout the Asia-Pacific region.

We are also deeply honored to present a Plaque of Appreciation to Representative Kim Yoon, Member of the National Assembly, in recognition of his outstanding contributions to the development of Korean healthcare, rehabilitation, and occupational therapy. We are truly grateful for his continued interest and support.

It is my sincere hope that this international symposium will inspire both domestic and international experts and serve as a meaningful milestone in advancing occupational therapy and global collaboration.

Once again, I extend my warmest gratitude to everyone who has joined us and taken this valuable step together.

Thank you.

인사말

존경하는 작업치료인 그리고 관계자 여러분.

작업치료는 단순한 전문직이 아니라, 삶의 의미와 존엄과 희망을 다시 일으켜 세우는 소명입니다. KISOT 2025는 바로 그 소명을 함께 되새기는 자리입니다.

“작업치료가 연결하는 삶의 힘: 응급의료에서 통합돌봄까지”라는 이번 주제는, 위기와 회복, 생존과 삶의 경계를 이어주는 작업치료의 여정을 이야기합니다. 응급실의 긴박한 순간에서부터 지역사회로 돌아오는 일상의 회복에 이르기까지, 우리의 실천은 ‘인간의 작업적 정의(occupational justice)와 품위’라는 한 편의 서사로 이어집니다.

이 심포지엄이 지식을 나누는 자리를 넘어, 우리가 누구이며 왜 이 일을 하는지를 다시 확인하는 여정이 되기를 바랍니다. 각 세션과 대화, 그리고 통찰이 모여 우리의 중심에 있는 그 한 가지 진실 — 사람의 삶을 강화하고, 연결하는 힘 — 에 당기를 소망합니다.

이 소망의 성취를 위해 헌신해 준 준비위원회와 특히 강대혁 부회장님의 눈부신 활약은 큰 감동이었습니다. 함께 재능과 마음을 모아주신 모든 분들께 깊이 감사 드립니다. KISOT 2025가 우리 모두에게 새로운 영감과 용기를 주는 시간이 되기를 바랍니다. 작업치료를 키스!

감사합니다.

김지현
대한작업치료사협회
2025 국제심포지엄 준비위원장

Dear colleagues and friends,

There are moments when our work as occupational therapists becomes more than a profession — it becomes a calling to restore meaning, dignity, and hope in people’s lives. KISOT 2025 is one of those moments.

Under the theme “Best Practice for Empowering Lives: From ER to Community,” we gather here to explore how occupational therapy bridges the fragile line between crisis and recovery, between survival and living. From the urgency of emergency care to the quiet resilience of community reintegration, our practice tells one continuous story — the story of human dignity and occupational justice.

This symposium is not just about sharing knowledge; it is about reaffirming who we are and why we do what we do. Each session, each dialogue, each shared insight brings us closer to the heart of our profession — empowering lives, from one person to community.

The dedication of the organizing committee with same heart, and especially the dazzling efforts of Vice Chairman Kang Dae-hyuk, were deeply moving. I extend my deepest gratitude to everyone who contributed their talents and hearts.

May KISOT 2025 inspire us to dream boldly, to collaborate deeply, and to continue weaving the threads of care that connect every stage of life. For this, let’s kiss occupational therapy!

축사

이수진

더불어민주당 국회의원

안녕하십니까. 국회 보건복지위원회 간사를 맡고 있는 더불어민주당 성남 중원 국회의원 이수진입니다.

존경하는 세계작업치료사연맹(WFOT) 관계자 여러분과 대한작업치료사협회 회원 여러분, 그리고 국내외에서 함께 해주신 내빈 여러분, 대한작업치료사협회 2025 국제심포지엄(Korea International Symposium on Occupational Therapy 2025) 개최를 진심으로 축하드립니다.

초고령사회로 진입한 우리나라에서 재활과 돌봄은 더 이상 특정 구성원의 문제가 아닌 모든 국민이 함께 고민해야 할 국가적 과제가 되었습니다. 정부는 모든 국민이 거주지에서 주거·의료·요양·돌봄을 통합적으로 지원받을 수 있도록 탄탄한 보건 의료·복지시스템을 구축하여 국민의 건강수명을 연장하고 삶의 질을 향상시켜 나가야 합니다. 재활은 이러한 통합돌봄의 중요한 축을 이루며, 작업치료사의 전문성은 치료 후 국민이 지역사회로 안전하게 복귀하는 데 핵심적인 역할을 담당할 것입니다.

국회 보건복지위원회 위원으로서 작업치료를 포함한 재활분야가 국가정책 속에서 그 역할을 분명히 인정받고, 국민의 권익과 건강권 보장에 기여할 수 있도록 입법적·정책적 노력을 다하겠습니다. 작업치료사를 비롯한 보건 의료인력의 권익이 향상되고 안정적인 수급이 이루어질 수 있도록 최선을 다하겠습니다.

오늘 심포지엄이 국제 학술 교류와 협력을 넘어 작업치료가 국민과 더 가까이 다가가고, 모두가 건강한 삶을 누릴 수 있는 길을 여는 장이 되기를 기대합니다.

대회를 준비해주신 대한작업치료사협회와 모든 관계자 여러분 그리고 함께해주신 모든 분께 늘 건강과 건승이 함께하시길 기원드립니다. 감사합니다.

축사

김윤

더불어민주당 국회의원

안녕하십니까. 더불어민주당 제22대 비례대표 국회의원, 세상을 고치는 김윤입니다.

「대한작업치료사협회 2025년 국제심포지엄」 개최를 진심으로 축하드립니다. 오늘 심포지엄 개최를 위해 애써주신 이지는 협회장님을 비롯한 관계자 여러분께도 감사드립니다.

우리 사회는 빠르게 초고령사회로 진입했고, 그에 따라 만성질환도 늘어나고 있습니다. 동시에 정신건강 문제 역시 심화되고 있습니다. 이제 ‘건강하게 산다’는 것이 개인의 과제가 아니라 사회 전체의 과제가 되고 있습니다. 그만큼 체계적인 치료와 돌봄의 필요성도 커지고 있습니다.

그러한 의미에서 이번 심포지엄 주제인 ‘작업치료가 연결하는 삶의 힘 : 응급의료에서 통합돌봄까지’는 오늘날 작업치료의 역할과 가치를 잘 보여주고 있습니다.

작업치료사는 응급의료 현장에서부터 통합돌봄에 이르기까지 재활과 돌봄의 현장에서 국민 모두가 건강한 일상을 누릴 수 있도록 큰 역할을 해주고 계십니다. 노인이 스스로의 삶을 유지할 수 있게 하고, 아이들이 잠재력을 마음껏 펼칠 수 있게 하며, 정신질환을 가진 이들을 사회와 다시 연결시켜 줍니다. 그렇기에 작업치료는 단순한 재활이 아닙니다. 삶을 다시 세우는 힘입니다.

오늘 이 자리에 모인 국내외 전문가들의 지혜와 경험이 더해진다면 그 힘은 더욱 깊어지고 더 넓게 퍼져나갈 것입니다. 그것은 곧 우리 사회가 더 건강하고 더 따뜻한 공동체로 나아가는 길이 될 것입니다.

앞으로 디지털 헬스케어의 발전, 지역사회 통합돌봄 체계 구축과 함께 작업치료의 역할이 더 확장될 것으로 예상됩니다. 이를 위해서는 제도와 지원이 뒷받침되어야 합니다. 국회 보건복지위원회 위원으로서 법, 제도 마련에 노력을 다하겠습니다.

다시 한번 국제심포지엄 개최를 축하드리며, 연구와 교류가 큰 성과로 이어지기를 기원합니다. 감사합니다.

축사

한창민
사회민주당 국회의원

존경하는 대한작업치료사협회 회장님과 운영위원 여러분, 그리고 KAOT 국제심포지엄에 함께해주신 국내외 연사 및 참석자 여러분, 반갑습니다.

사회민주당 대표 국회의원 한창민입니다.

‘대한작업치료사협회 2025 국제심포지엄(KISOT 2025)’의 개최를 진심으로 축하드립니다.

이번 심포지엄을 통해 작업치료의 가치와 미래를 조명하고, 국내외 전문가들이 함께 머리를 맞대어 그동안의 연구 결과와 현장의 경험을 나누는 장이 마련된 것을 매우 뜻깊게 생각합니다.

작업치료는 개인 일상 회복과 인간다운 삶을 회복시키는 핵심적 역할을 수행하는 전문 분야로서 국민의 보편적 건강권과 복지국가 실현의 중요한 축입니다.

특히 대한민국이 초고령사회로 진입하고 지역중심의 통합돌봄체계를 시행하면서 의료와 돌봄을 연결하고 사회통합을 실현하는 작업치료사의 역할은 더 중요해지고 있습니다.

국가가 의료와 돌봄을 책임지는 혁신적 복지국가를 지향하는 사회민주당은 작업치료 분야가 이러한 비전 실현의 중요한 동반자임을 잘 알고 있습니다.

이번 심포지엄을 계기로 작업치료 현장의 목소리와 연구 성과, 그리고 국제적 협력이 한데 모여 정책과 제도의 진전으로 이어지길 기대합니다.

심포지엄에 참여해 의미를 더해주시는 세계작업치료사연맹(WFOT) Samantha Shann 회장님, 아시아태평양작업치료지역그룹(APOTRG) Stella Wai Chee Cheng 회장님, 경기도의료원 이필수 원장님, 강원대학교 전병진 교수님께 각별한 감사의 마음을 전합니다. 심포지엄 준비에 애써주신 대한작업치료사협회 모든 관계자 여러분께도 깊이 감사드립니다.

앞으로도 사회민주당은 작업치료사 여러분의 전문성과 헌신이 사회적으로 정당하게 평가받고, 국민 누구나 적시에 적절한 작업치료 서비스를 받을 수 있는 환경을 만들어가기 위해 최선을 다하겠습니다.

KISOT 2025의 성공적인 개최를 진심으로 축하드리며, 오늘의 논의가 작업치료의 새로운 내일을 여는 소중한 계기를 되기를 바랍니다. 고맙습니다.

Congratulatory Message

Samantha Shann
세계작업치료사연맹(WFOT) 회장

It is my great honour to extend sincere congratulations to the Korean Association of Occupational Therapists (KAOT) on the convening of the symposium, Best Practice for Empowering Lives: From ER to Community.

This symposium provides an invaluable platform for experts and practitioners to share knowledge and experience, fostering collaboration that will contribute to the advancement of patient care and community health. The chosen theme reflects a timely and essential mission of occupational therapy — empowering lives by ensuring continuity of care from emergency response to community integration.

In today’s rapidly changing healthcare environment, international collaboration is more important than ever. By learning from one another’s experiences and building partnerships across borders, we strengthen our collective ability to develop best occupational therapy practices, improve systems of care, and ultimately enhance the well-being of the communities we serve.

I am confident that the presentations and discussions held here will generate meaningful insights, deepen professional connections, and inspire future innovations in occupational therapy practice, education, and research. May this symposium serve as a foundation for continued professional progress, both nationally and internationally, and may all participants find the experience rewarding and fruitful.

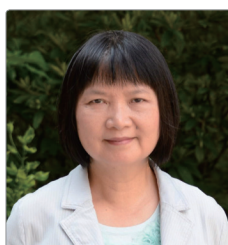

I’m delighted to join you in person. Let us make this symposium a celebration of what we have achieved and a launching pad for the extraordinary possibilities that lie ahead. Thank you for your passion, ideas, and unwavering dedication to advancing occupational therapy.

Once again, I offer my heartfelt congratulations and best wishes for the success of this Korea International Symposium on Occupational Therapy 2025.

Congratulatory Message

Stella Wai Chee Cheng

아시아·태평양작업치료지역그룹(APOTRG) 회장

I extend my heartfelt congratulations to the Korea Association of Occupational Therapists for hosting the first International Symposium on Occupational Therapy (KISOT) in 2025.

The theme ‘Best Practice for Empowering Lives: From ER to Community’ marked the comprehensive scope of OT service in Korea. The Convenor of the KISOT had rightly prepared us to get ready to ignite our passion for occupational therapy. With so many renowned speakers from both local and overseas, I am sure this symposium will bring us new ideas and stimulate us to further develop OT service. The KISOT is also an excellent platform allowing us to exchange views and explore new collaboration.

I would like to acknowledge the great efforts of the organizing committee and KAOT to make this event possible. To organize an international symposium for the first time in Korea not only demand time in planning, but also effort in communication and coordination. Special thanks to the fellow OTs and OT students who submitted papers to the symposium and generously share their work and knowledge with us. Sharing and learning is important for our profession to thrive and this symposium would definitely provide us with these 2 crucial elements.

To our distinguished speakers, presenters, and attendees, it is your contribution that make this symposium a success. You not only enrich the symposium but also inspire future research and collaboration. The connections and conversations started here will undoubtedly lead to new partnerships and innovations in OT service in the years to come.

I am looking forward to the sharing and communication with you in the symposium. May the knowledge shared here serve as a foundation for future development of OT in Korea and the region. Do remember that there will be another great event here in 2028, the 9th Asia Pacific OT Congress. Hope to meet you again!

Once again, congratulations to everyone involved. I wish you all a successful and inspiring symposium.

축사

허명

한국여성단체협의회 회장

존경하는 대한작업치료사협회 회원 여러분, 세계 여러 나라에서 오신 귀빈 여러분, 반갑습니다. 한국여성단체협의회 회장 허명입니다.

“대한작업치료사협회 2025 국제심포지엄”개최를 진심으로 축하합니다. 이 뜻깊은 행사를 준비하신 대한작업치료사협회 이지는 회장님과 관계자 여러분께 깊이 감사드립니다. 2025 국제심포지엄은 건강증진을 위한 최신 연구 성과와 임상경험을 교류하고 공유하는 대단히 중요한 국제적인 행사입니다. 이처럼 성대한 국제행사가 우리나라에서 열리는 것은 자랑스러운 일입니다.

대한작업치료사협회는 1993년 설립 이래 작업치료사의 권익 옹호와 지위 향상은 물론 친목과 직업윤리를 높이기 위해 많은 일을 수행 했습니다. 한국여성단체협의회는 대한작업 치료사협회가 회원단체로서 함께 하여 자랑스럽게 생각합니다.

작업치료사 여러분은 신체적, 정신적 기능이 떨어진 분들을 치료하여 정상적인 일상생활을 할 수 있도록 도와주시는 훌륭한 일을 하고 계십니다. 작업치료사 여러분은 절망에 빠질 수도 있는 분들에게 희망을 주고 계시는 진정한 의인들이십니다.

우리사회의 고령화 속도가 빠르게 진전됨에 따라 작업치료사 여러분의 전문적 치료에 대한 사회적 수요와 역할은 날로 증대할 것입니다.

한국여성단체협의회 54개 회원단체 17개 시,도여성단체협의회 전국 500만 회원들은 대한작업치료사협회 이지는 회장님의 작업치료사 여러분의 권익옹호와 친목과 작업치료기술 향상을 위한 계획과 활동을 적극 지지하고 있습니다.

이번에 논의되는 연구 성과와 임상 경험들이 국민의 건강과 복지 증진은 물론, 국제적 협력과 학문적 교류를 더욱 강화하는 계기가 되기를 바랍니다.

대한작업치료사협회의 무궁한 발전을 기원하며, 오늘 이처럼 훌륭한 국제행사에 함께 하신 모든 분의 건강과 가정의 행운을 빕니다. 감사합니다.

축사

윤준식

대한재활의학회 이사장

존경하는 대한작업치료사협회 관계자 여러분, 국내외 작업치료 전문가 여러분, 안녕하십니까.
대한재활의학회 이사장 윤준식입니다.

“대한작업치료사협회 2025 국제심포지엄(KISOT 2025)”의 개최를 진심으로 축하드립니다.

올해 심포지엄은 *“Best Practice for Empowering Lives: From ER to Community”*라는 주제 아래, 급성기 병원 치료
에서부터 지역사회 통합 돌봄에 이르기까지 환자의 삶을 전방위적으로 지원하는 작업치료의 역할과 가능성을 조명하고
있어 더욱 뜻깊게 느껴집니다.

이번 심포지엄의 프로그램을 살펴보면, 신체장애, 정신건강, 노인 및 아동청소년 작업치료에 이르기까지 다양한 임상 영
역은 물론, 최신 기술을 접목한 재활 전략, 국제 인증 및 교육 체계, 그리고 각국의 실천 사례까지 폭넓게 다루고 있음을 알
수 있습니다. 특히 ‘삶의 임파워링’을 중심으로 구성된 핵심 강연들과, 지역사회 기반 작업치료의 실제 사례 발표는 앞으로
의 작업치료가 나아갈 방향에 대한 깊이 있는 통찰을 제공해 줄 것으로 기대됩니다.

작업치료는 단순한 치료 행위를 넘어, 개인의 일상 회복과 사회적 역할 복귀를 돕는 전문 분야입니다. 병원 중심의 치료에
서 벗어나 지역사회로, 그리고 삶의 전 과정으로 확장되는 재활 패러다임 안에서 작업치료는 이제 중심축의 역할을 수행
하고 있습니다.

대한재활의학회는 이러한 흐름 속에서 대한작업치료사협회와의 협력을 한층 더 강화하고, 환자의 삶의 질 향상을 위한 실
질적이고 지속가능한 재활 모델을 함께 만들어가고자 합니다.

이번 심포지엄이 학문적 교류는 물론, 국가 간 협력과 정책적 확장을 위한 기회의 장이 되기를 바라며, 다시 한 번 KISOT
2025의 성공적 개최를 축하드립니다.

참석하신 모든 분들의 건강과 지속적인 발전을 기원합니다. 감사합니다.

축사

허봉현

대한의료기사단체총연합회 회장
대한안경사협회 협회장

안녕하십니까. 대한의료기사단체총연합회 회장 허봉현입니다.

먼저, 대한작업치료사협회 2025 국제심포지엄의 성대한 개최를 진심으로 축하드립니다. 무엇보다 이 뜻깊은 행사를 기획하
고 준비해 오신 대한작업치료사협회 이지은 회장님과 임원 여러분의 헌신과 노고에 깊은 감사와 격려의 말씀을 드립니다.

존경하는 작업치료사 여러분!

여러분은 발달 문제를 포함하여 다양한 원인으로 신체적·정신적 기능이 저하된 이들이 최대한 독립적으로 일상생활을 수
행하고, 능동적으로 사회에 참여할 수 있도록 돕는 보건의료 전문가입니다. 기능회복을 포함한 재활치료, 교육, 중재에 이
르는 폭넓은 전문 역량을 바탕으로 국민의 생활 기능과 행복한 삶을 지켜내는 여러분의 역할은 매우 소중합니다.

현재도 작업치료사들은 재활병원, 보건소, 치매안심센터, 요양원, 노인복지시설, 특수학교, 아동발달센터 등 다양한 현장
에서 국민과 함께하고 있습니다. 그러나 고령화 심화, 만성질환 증가, 정신건강 문제 확대 등 사회적 요구가 커지고 있는
현 시대적 상황에서, 재활의 필요성은 더욱 높아지고 있습니다. 이에 발맞추어 작업치료사의 활동 영역은 앞으로 더욱 확
장되어야 할 것이며, 국민의 삶 전반에 걸쳐 없어서는 안 될 핵심 인력으로 자리매김할 것입니다.

대한의료기사단체총연합회 역시, 국민의 생활 기능을 지키고 건강한 삶을 지원하는 작업치료사의 전문성과 역량이 더 큰
힘을 발휘할 수 있도록 정책적 뒷받침을 아끼지 않겠습니다. 아울러 작업치료사의 사회적 위상을 높이고, 일터에서 정당한
권리가 존중받을 수 있도록 힘을 보태며 함께하겠습니다.

오늘 이 국제심포지엄의 주제처럼 ‘응급의료에서 통합돌봄’에 이르기까지 국민의 삶을 연결하는 전문직으로 도약하고, 작
업치료사의 현재와 미래를 조명하는 중요한 계기가 되기를 기원합니다.

다시 한 번, 이번 행사의 성공적인 개최를 축하드리며, 대한작업치료사협회와 모든 회원 여러분의 무궁한 발전을 진심으로
기원합니다. 감사합니다.

축사

양대림
(사)대한물리치료사협회 협회장

존경하는 대한작업치료사협회 이지은 회장님과 임원 및 회원 여러분, 그리고 국내외에서 귀한 걸음을 해주신 내·외 귀빈 여러분!

대한작업치료사협회 2025 국제심포지엄(KISOT 2025)의 개최를 진심으로 축하드립니다. “작업치료가 연결하는 삶의 힘: 응급의료에서 통합돌봄까지”라는 주제를 담아내신 이번 심포지엄은, 우리 시대 보건의료가 지향해야 할 가치와 방향을 분명하게 보여주는 귀중한 학술의 장이라 생각합니다.

오늘날 우리는 고령화, 만성질환의 증가, 그리고 급성기 이후 지역사회로의 원활한 복귀라는 시대적 과제 앞에 서 있습니다. 이러한 도전 속에서 재활과 관련된 전문영역의 역할은 점점 더 커지고 있습니다.

작업치료와 물리치료는 각자의 전문성을 바탕으로 환자의 기능 회복과 사회 복귀를 위해 협력하며, 국민 건강을 지탱하는 두 축이 되어왔습니다. 오늘 이 자리에서 다뤄질 연구와 경험의 나눔은, 환자 개개인의 삶뿐만 아니라 우리 사회의 의료·복지 시스템 전반에 큰 울림을 주리라 믿습니다.

이번 국제심포지엄은 단순히 학문적 성과를 발표하는 자리를 넘어, 세계 각국의 전문가들이 모여 재활의 새로운 비전을 모색하는 중요한 전환점이 될 것입니다. 특히 아시아를 비롯한 다양한 지역의 경험과 지혜가 공유됨으로써, 한국은 물론 전 세계 재활 분야가 한 단계 도약하는 계기가 마련될 수 있기를 기대 합니다.

또한 이번 행사는 환자를 중심에 둔 통합적 돌봄 모델을 구현하는 중요한 학문적 토대를 제공할 것입니다. 병원에서 지역 사회로, 치료에서 삶으로 이어지는 여정 속에서 작업치료와 물리치료는 국민건강권 확보를 위한 필수 요소입니다. 우리 대한물리치료사협회와 대한작업치료사협회는 환자 중심의 재활·돌봄 체계 확립을 위해 최선의 노력을 다하겠습니다.

오늘 이 자리에 함께한 모든 전문가 여러분의 지혜와 헌신이 모일 때, 우리는 환자의 건강수명을 연장하고, 나아가 사회 전체의 복지를 향상 시키는 위대한 발걸음을 내디딜 수 있을 것입니다.

끝으로, 이 뜻깊은 심포지엄을 준비해 주신 대한작업치료사협회 이지은 회장님과 임원 여러분, 그리고 묵묵히 애써주신 모든 준비위원들께 깊은 감사의 말씀을 드립니다. 아울러 이번 행사에 참석하신 모든 분들께 학문적 성취와 소중한 교류의 결실을 안겨드리기를 진심으로 기원합니다. 감사합니다.

2025 국제심포지엄 준비위원회

2025 국제심포지엄

대회장 이지은((사)대한작업치료사협회)

준비위원장 김지현(극동대학교 작업치료학과)

준비위원 김정현(강원대학교 작업치료학과)	박윤이(동남보건대학교 작업치료과)
윤여용(극동대학교 작업치료학과)	이선욱(대구대학교 작업치료학과)
정운화(전주대학교 작업치료학과)	

제13대 대한작업치료사협회 임원

협회장 이지은((사)대한작업치료사협회)

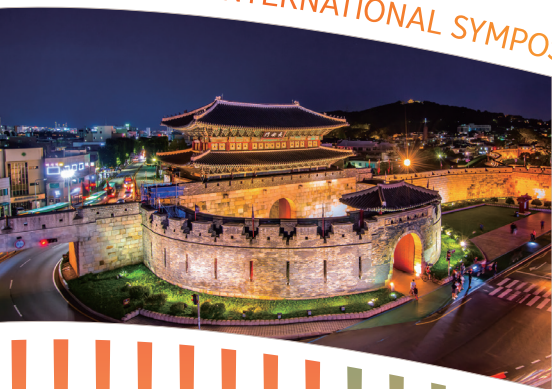

부회장 강대혁(한서대학교 작업치료학과)	백지영(동신대학교 작업치료학과)
송재철(마산대학교 작업치료과)	김지현(극동대학교 작업치료학과)

이사 고석호(도봉장애인종합복지관)	권재성(청주대학교 작업치료학과)
김영근(대구보건대학교 작업치료학과)	
김정현(서울대학교 보라매병원 인공지능데이터연구실)	
김지윤(부산대학교병원 작업치료실)	노동희(근로복지공단 본부 운영계획팀)
박윤이(동남보건대학교 작업치료과)	윤여용(극동대학교 작업치료학과)
정구희(여의도성모병원 작업치료실)	정병록(연세대학교 작업치료학과)
정유진(원광대학교병원 작업치료실)	정운화(전주대학교 작업치료학과)
지창우(제주대학교병원 작업치료실)	

2025 국제심포지엄 일정표

KOREA INTERNATIONAL SYMPOSIUM ON OCCUPATIONAL THERAPY 2025

05

October 17th (Friday)				
Schedule	Venue 2 (Room 401-402)	Venue 3 (Room 303)	Venue 4 (Room 306)	Venue 5 (Room 304-305)
09:00-09:30	Registration			
09:30-10:30		Registration		
10:30-11:30	Continuing Education for Korean Mental Health Specialist (Domestic Only)	Students Workshop M.O.M Table	Faculty Workshop: Metaverse – Based Fieldwork Program	Seminar A: Contemporary Practices in Korea
11:30-12:00				
12:00-13:00		Lunch (No free lunch. Only coffee or tea will be provided on the break time.)		
13:00-14:30		Students Workshop M.O.M Table	#Seminar B: OT for Physical Dysfunction	Special session: Values of 'Professional' Assembly
14:30-15:00		Break time		
15:00-17:00		Student Forum Entertaining OT Learning, Exciting OT Learning	#Seminar C: OT for Children & Adolescent	Professional Forum: Education Accreditation Forum
17:00-17:30				

※ (#)는 작업치료 연구 및 임상사례 구두 발표 세미나(Seminar B-G)입니다.

October 18th (Saturday)				
Schedule	Venue 1 (Room 405-408)	Venue 3 (Room 303)	Venue 4 (Room 306)	Venue 5 (Room 304-305)
09:00-09:30	Registration			
09:30-10:30	Special session: OT in Asian-Pacific Region (09:20)	VIPs Meeting	#Seminar D: OT for Children·Adolescents & Developmental Disabilities	Special session: Impact of the 'Integrated Care Support Act' to OT Profession in Healthcare Arena
10:30-11:30	Opening Remarks		Breaktime	Breaktime
11:30-12:30	Keynote Speeches	Networking	#Seminar E: OT for Older Adults	Empowering Lives with state-of-the-art technology
12:30-13:30	Lunch (No free lunch. Only coffee or tea will be provided on the break time.)			
13:30-14:30	Keynote- Empowering Lives through OT		#Seminar F: OT for Mental Health	Empowering Lives within the 'Integrated Care'
14:30-15:00	Breaktime	Networking		Breaktime
15:00-16:00	Keynote- Empowering Lives of Stroke Survivors		Breaktime	OT's Developments toward Empowering Lives
16:00-16:15	Breaktime		#Seminar G: Community-based Occupational Therapy	Breaktime
16:15-17:45	Real Stories of Empowering Lives by OT - Korea & Taiwan	Networking		Empowering Lives by Emerging OT
17:45-18:00	Closing Remarks			

- Venue 1 (Room 405-408) (simultaneous translation available for 10/18)
- Venue 2 (Room 401-402)
- Venue 3 (Room 303)
- Venue 4 (Room 306)
- Venue 5 (Room 304-305) (simultaneous translation available for 10/17)

October 17th (Friday)		
Schedule	Venue 3 (Room 303)	Venue 4 (Room 306)
09:30-10:30	Registration	
10:30-11:30	Students Workshop M.O.M Table MC: Jung-Hun Kim Yoon-Ho Jang	Faculty Workshop: Metaverse-Based Fieldwork Program Won-Seok Yun Executive Vice President of RaonMeta
11:30-12:00	Break time	
12:00-13:00	Lunch (No free lunch. Only coffee or tea will be provided on the break time)	
13:00-13:30	Students Workshop	
13:30-14:00	M.O.M Table MC: Jung-Hun Kim Yoon-Ho Jang	#Seminar B: OT for Physical Dysfunction Chair: Prof. Mi-Jung Kim Jungwon University • Effect of combination of neuromuscular electrical stimulation and repetitive facilitative exercise on hand function in post-stroke hemiplegia / Wenshuai Wang (China) • Empowering Recovery: A Review of Home-Based Mirror Therapy's Strategies and Challenges for Stroke Patients / Yi-chun Li (Taiwan) • Efficacy of Oculus VR-Based Rehabilitation Versus Optokinetic Stimulation in Unilateral Spatial Neglect: A Randomized Controlled Trial / Yea-Jin Ham (Korea) • Applying Functional Cognition in Clinical Settings: Case-Based Strategies / Eun-Kyu Ji (Korea)
14:00-14:30		
14:30-15:00	Break time	
15:00-17:00	Student Forum Entertaining OT Learning, Exciting OT Learning MC: Jung-Hun Kim Yoon-Ho Jang	#Seminar C: OT for Children & Adolescent Chair: Prof. Kang-Hyun Park Baekseok University • Occupational Therapy Practice in Addressing School Bullying among Autistic Students / Hsiao, Mei-Ni (Taiwan) • Effectiveness of Sensory Integration-Based Peer Intervention and the Critical Role of Occupational Therapists as Facilitators / Ae-Ri Yoo (Korea) • Non-Pharmacological Treatment Experiences among Parents of School-aged Children with ADHD in Busan / Jung-Min Lee (Korea) • Beyond Diagnosis in Schools: Functional Clustering Based on Cognitive and EEG Profiles and Its Association with Virtual Kitchen Task Performance Errors / Yu-Mi Ju (Korea) • Effect of Early Rehabilitation in the Neonatal Intensive Care Unit (NICU): A Case Report / Ji-Won Seo (Korea)

October 17th (Friday)	
Schedule	Venue 5 (Room 304-305) (simultaneous translation available)
09:30-10:30	Registration
10:30-12:00	# Seminar A: Contemporary Practices in Korea Chair: Prof. Sang-Min Seo Semyung University • 4 Channel Treatment for Dysphagia / Su-Kyoung Jeong Seoul National University Hospital - Bundang • Low-tech AT intervention in Pediatric OT / Min-Hee Lee Seoul Rehabilitation Hospital • Positive Behavior Supporting / Seok-Ho Ko Dobong Welfare Center for PWD • Health Coordinator in Supportive Housing / Sae-Rom Park Anglican Church of Korea Supportive Housing Center
12:00-13:00	Lunch (No free lunch. Only coffee or tea will be provided on the break time)
13:00-14:30	Special session: Values of 'Professional' Assembly Chair: Prof. Eun-Young Yoo Yonsei University • WFOT, WFOT Congress, Regional Groups / Samantha Shann President of WFOT • APOTRG & APOTC / Stella Cheng President of APOTRG • The 2nd APOTC-Taiwan (1999) / Athena Yi-jung Tsai Director of WFOT • The 8th APOTC-Japan (2024) / Kayoko Takahashi Vice-President of APOTRG • The 9th APOTC-Korea (2028) / Ji-Eun Lee President of KAOT
14:30-15:00	Break time
15:00-17:00	Professional Forum: Education Accreditation Forum Chair: Dr. Byoung-Lock Jeong KAOT • Ceremony • Accreditation in Korea / Moon-Young Chang Inje University • A research outcome / Ick-Pyo Hong Yonsei University • Accreditation in China / Kuicheng LI President of China Occupational Therapy Association • Accreditation in Taiwan / Amber Chia Yu Chang Delegate of Taiwan Occupational Therapy Association • Accreditation in Japan / Saeko Takenaka Delegate of Japanese Association of Occupational Therapy • Panel Discussion

October 18th (Saturday)	
Schedule	Venue 1 (Room 405-408) (simultaneous translation available)
09:00-09:20	Registration
09:20-10:30	Special session: OT in Asian-Pacific Region Chair: Prof. Junh-Hun Kim Kangwon University China – Zhenyang Cui COTA (China Occupational Therapy Association) Hongkong – Stella Wai Chee Cheng HKOTA(Hong Kong Occupational Therapy Association) Taiwan – Amber Chia Yu Chang TOTA(Taiwan Occupational Therapy Association) Japan – Saeko Takenaka JAOT(Japanese Association of Occupational Therapy) Korea – Jae-Cheol Song KAOT(Korean Association of Occupational Therapist)
10:30-12:30	Opening Remarks Keynote Speeches Samantha Shann President of World Federation of Occupational Therapists(WFOT) Pil-Soo Lee Head of Gyeonggi Provincial Medical Center Byoung-Jin Jeon Formal President of Korean Association of Occupational Therapists (KAOT) (10~12th)
12:30-13:30	Lunch (A lunch coupon will be provided to all participants.)
13:30-14:30	Keynote – Empowering Lives through OT Chair: Prof. Jae-Cheol Song Masan University Kayoko Takahashi (Japan) Professor of Kitasato University
14:30-15:00	Breaktime
15:00-16:00	Keynote – Empowering Lives of Stroke Survivors Chair: Prof. In-Gyu Yoo Jeonju University Grace J Kim (USA) Professor of New York University
16:00-16:15	Breaktime
16:15-17:45	Real Stories of Empowering Lives by OT – In Korea & Taiwan Chair: Yeong-Ae Yang Inje University • Functional Cognition Intervention (Korea) / Joo-Hee Jeong SCH University Hospital • Mutual Growth through ‘Stay Strong Together’ Camp (Korea) / Seok-Yeon Ji Center of SISO • Building Health Prevention Network (Taiwan) / Athena Yi-jung Tsai Kaohsiung Medical University • Community Support in the Mental Health(Taiwan) / Yuan-Hui Lee Pescadorean Association of Caring Elderly & Disabilities
17:45-18:00	Closing Remarks

October 18th (Saturday)	
Schedule	Venue 4 (Room 306)
09:00-09:30	Registration
09:30-10:30	#Seminar D: OT for Children·Adolescents & Developmental Disabilities Chair: Seok-Yeon Ji Center of Sensory Integration toward Social and Occupational being • School-Based Occupational Therapy: Therapists’ Perspectives, Practices, and Needs from the Field / Seon-Mi Hwang (Korea) • Consultation for Inclusive Kindergarten Teachers Supporting Children with Developmental Disabilities / Mi-Sun Kim (Korea) • Occupational Therapists’ Social Contribution and Professional Growth Through Participation in the SST Camp / Hee-Jin Jung (Korea) • A Review of the Need for Effective Interdisciplinary Collaboration in Community-Based Care: Experience from a Community Care Project for people with Severe Developmental Disabilities / So-Yeon Kim (Korea)
10:30-11:30	Breaktime
11:30-12:30	#Seminar E: Geriatric Occupational Therapy Chair: Prof. Deok-Ju Kim Cheongju University • Prevalence of Dysphagia among Community-Dwelling Elderly in South Korea Using Korean Version of Dysphagia Risk Assessment for the Community-Dwelling Elderly / Bo-Ra Kim (Korea) • Nine-Year Nationwide Longitudinal Study of Functional Decline in Dementia: Insights from 375,374 Assessments / Wen-Chou Chi (Taiwan) • Facilitating Home-Based Reablement Through Case Management: A Long-Term Care Case from Kaohsiung, Taiwan / Yu Hsuan Tseng (Taiwan)
12:30-13:30	Lunch (A lunch coupon will be provided to all participants.)
13:30-15:00	#Seminar F: OT for Mental Health Chair: Prof. Su-Kyoung Kim Konyang University • Exploring the Effects of Open Studio Art Therapy on Motivation and Cognitive Performance in Individuals with Chronic Psychiatric Disorders / Wan Chi Hsu (Taiwan) • A Phenomenological Study of Taiwanese Occupational Therapists’ Approaches to Cognitive Impairments in Mental Health / Guang-Hsing Liu (Taiwan) • Comparing the Performance of Two AI Language Models in Assessing Cognitive Flexibility for Occupational Therapy / Shih-Chen Fan (Taiwan) • Development of Standard Guidelines for the Mental Health Occupational Therapist Training Program / Kyoung-Young Park (Korea)
15:00-16:00	Breaktime
16:00-17:30	#Seminar G: Community-based Occupational Therapy Chair: Prof. Mi-Yeong Gang Woosong University • The Essence of Occupation in the Scientific Domain: A CRE-Topodynamics Structural Model for Occupational Therapy / Kyung-Up Moon (Korea) • The Necessity of Developing Leisure Activity Promotion Programs for Older Adults and Patients with Chronic Diseases, and an Effectiveness Analysis of the “Occupational Therapy Classroom” / Soo-Gyung Chae (Korea) • The Effects of Home Modification-Based Occupational Therapy on Activities of Daily Living, Occupational Performance and Satisfaction, and Residential Environmental Accessibility in Older Adults / Ho-Sung Hwang (Korea) • Development of Guidelines for Home-Visit Rehabilitation Services in Community-Integrated Care / Seung-Wan Yang (Korea)

October 18th (Saturday)	
Schedule	Venue 5 (Room 304-305)
09:00-09:30	Registration
09:30-10:30	Special session: (OT only) (Korean only) Impact of the ‘Integrated Care Support Act’ to OT Profession in Healthcare Arena Yea-Yong Yoon Far East University
10:30-11:30	Breaktime
11:30-12:30	Empowering Lives with state-of-the-art technology Chair: Prof. Jong-Bae Kim Yonsei University • Innovative Practice with Technology / Yong-Gu Han COTRAS • Valuating AI Care / Joong-Il Shin Kyungnam University • Personalization of AT / Wan-Ho Jang Jeonju University
12:30-13:30	Lunch (A lunch coupon will be provided to all participants.)
13:30-14:30	Empowering Lives within the ‘Integrated Care’ Chair: Prof. Byoun-Gjin Jeon Kangwon University Jae-Young Lim Regional Health and Medical Center for PWD, Seoul National University Bundang Hospital
14:30-15:00	Breaktime
15:00-16:00	OT’s Developments toward Empowering Lives Chair: Prof. Seong-A Lee Soonchunhyang University • Role-Based Occupational Performance Model / Min-Ye Jung Yonsei University • Building Health Management System in Community / Sang-Woo Han Kwangju Women’s Universtiy • ICF-based Protocol for Assessment Selection / Yun-Wha Jeong Jeonju University
16:00-16:15	Breaktime
16:15-17:30	Empowering Lives by Emerging OT Chair: Prof. Hwan Kim Daegu University • OT at ICU / Ji-Yoon Kim Pusan National University Hospital • OT for Cancer / Yu-Jin Jeong Wonkwang University Hospital • OT in Convalescent Rehabilitation / Won-Mi Kim Bundangbest Hospital • OT in Home Healthcare / Su-Bin Park Salim Health Welfare Social Cooperative

Showcase Symposia of the KISOT 2025				
Schedule	October 17th (Friday)		October 18th (Saturday)	
	Venue 6 (Room 301-302)	Venue 7 (Lobby)	Venue 6 (Room 301-302)	Venue 7 (Lobby)

2025 국제심포지엄 주요 강연

Keynote Speeches

The Power of Occupational Therapy in Shaping Health and Well-being
/ Samantha Shann

Public Healthcare in Korea's Health Policy / Pil-Soo Lee

Occupational Therapy Futures: Thinking with Deleuze on 'Difference'
and 'Becoming' / Byoung-Jin Jeon

Major Speakers

Empowering lives through OT / Kayoko Takahashi

Empowering lives of Stroke Survivors / Grace J Kim

Empowering lives within the Integrated Care: ageing and disability
/ Jae-Young Lim

Real Stories of Empowering Lives by OT – Korean & Taiwan

Building health prevention network / Athena Yi-jung Tsai

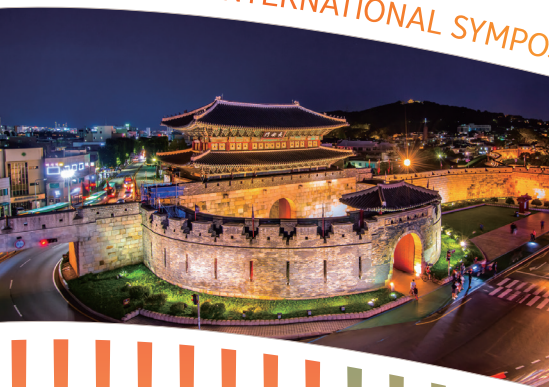

Community support in the mental health / Yuan-Hui Lee

Functional Cognition Intervention(Medical Settings) / Ju-Hee Jeong

Enduring Together in Occupation – Practices and Sustainable Challenges
of Stay Strong Together / Seok-Yeon Ji

※ 진행 상황에 따라 순서는 변경될 수 있습니다.

KOREA INTERNATIONAL SYMPOSIUM ON OCCUPATIONAL THERAPY 2025

06

The Power of Occupational Therapy in Shaping Health and Well-being

건강과 웰빙을 형성하는 작업치료의 힘

The World Federation of Occupational Therapists (WFOT) is a federation of 111 occupational therapy member organizations and the key international representative of the profession. Like every health profession, occupational therapy is impacted by the changing world and health environment. Occupational therapists need to understand what is impacting on the health and social landscape today and in the future so we can meet the opportunities available to us as a profession.

Recent World Health Organization (WHO) data from various sources shows an increase in the ageing population worldwide, an increase in the prevalence of non-communicable diseases, with at least 16 per cent of the global population experiencing a significant disability and more than 2.5 billion people worldwide in need of one or more assistive products. Alongside this, many countries, including high-income countries, report limitations in their rehabilitation services and shortages in their rehabilitation workforce. All are compounded by climate change, which affects our daily lives, and man-made and natural disasters, which impact and infringe on individuals' and communities' access to and participation in chosen occupations. These are all areas where occupational therapy can and should make significant contributions.

By considering the theme of this important KISOT Symposium 'Empowering Lives: From ER to Community' and reflecting on wide-reaching social, environmental, and systemic factors that impact the health and functioning of individuals, communities, and populations, this keynote presentation will focus on the unique contribution of occupational therapy to health and well-being and how we can influence and shape WHO's Rehabilitation 2023 agenda.

Drawing on personal and professional experiences in government, organizational, and service-level development, Samantha will explore how we can and should remember the core roots of our profession and ensure that the use of occupations is integral in our work.

Samantha Shann (UK)
President of World Federation of Occupational Therapists

Public Healthcare in Korea's Health Policy

한국의 건강 정책 안에서의 공공의료

공공의료는 국가와 지자체가 책임지는 사회적 안전망으로서, 취약계층의 의료 접근성을 보장하고 감염병·재난 상황에 신속히 대응하며 분만·외상·심뇌혈관·소아진료 등 필수과목을 보완하는 역할을 하고 있습니다. 또한 예방과 만성질환 관리, 돌봄을 연계하고 지역 간 의료격차를 완화하며, 민관 협력을 통해 연속적인 치료체계를 유지하는 기능을 담당하고 있습니다. 경기도의료원은 이러한 역할을 실현하기 위해 돌봄의료센터, 감염병 대응체계, 수도권 감염병전문병원 구축, 간호간병 통합서비스, 분만·재활 특화, 이동진료 및 장애인 구강진료 지원사업 등을 추진하고 있습니다.

Public healthcare serves as a social safety net for which the national and local governments bear responsibility. It ensures medical accessibility for vulnerable populations, provides rapid responses to infectious diseases and disasters, and supplements essential medical services such as obstetrics, trauma care, cardiovascular and cerebrovascular treatment, and pediatric medicine.

Furthermore, public healthcare connects prevention, chronic disease management, and long-term care, helps reduce regional disparities in medical services, and maintains a continuum of care through public-private cooperation.

To fulfill these roles, the Gyeonggi Provincial Medical Center is advancing a range of initiatives, including the establishment of a Comprehensive Care Center, infectious disease response systems, and a Metropolitan Infectious Disease Hospital; expanding integrated nursing care services; and promoting specialized programs in obstetrics and rehabilitation, as well as mobile clinics and dental care support for persons with disabilities.

Pil-Soo Lee (Republic of Korea)
Head of Gyeonggi Provincial Medical Center

Occupational Therapy Futures: Thinking with Deleuze on ‘Difference’ and ‘Becoming’

들뢰즈의 차이와 되기 관점에서 본 작업치료 미래

AI 시대에도 작업치료는 생존할 것이지만, 단순한 적응만으로는 충분하지 않다. 미래는 생성형 AI를 넘어 행동형·물리적 AI가 도래하는 시대, 작업치료는 새로운 패러다임을 모색해야 한다. 따라서 21세기 철학사에서 위대한 들뢰즈가 강조한 “되기(becoming)”를 이해하는 것이 필요하다. 되기는 고정된 완성이 아닌 끊임없이 반복되는 과정이다. 작업치료에서 만나는 존재는 동일성과 본질로 회귀하는 것이 아니라 차이와 생성 속에서 ‘되기’ 과정으로 이해해야 한다. 작업치료사는 사람을 고정된 기능적 존재로 보지 않고, 환경과의 상호작용 속에서 끊임없이 변화하고 의미를 만들어가는 가능성의 장으로 이해한다. 바둑판 위의 이세돌의 78수는 기존 질서를 해체하고 “기관 없는 신체(Body without Organs)”의 장을 열었던 것이다. 작업치료는 재활분야에서 유일하게 이를 실천할 수 있는 전문가이다.

Occupational therapy will continue to exist in the age of AI, yet mere adaptation will not be enough. The future is moving beyond generative AI toward an era of behavioral and embodied AI, and occupational therapy must seek a new paradigm in response. To this end, it is essential to understand what Gilles Deleuze, one of the great philosophers of the 21st century, emphasized as “becoming.” Becoming is not a fixed state of completion but an ongoing, recursive process of transformation. The beings we encounter in occupational therapy are not to be understood through identity or essence, but through difference and continual becoming. Occupational therapists do not perceive individuals as static, functional entities; rather, they understand them as fields of potential, constantly changing and generating meaning through interaction with their environment. Just as Lee Sedol’s 78th move in Go dismantled the existing order and opened a “Body without Organs”, occupational therapy stands as the only profession within rehabilitation capable of realizing such a transformative praxis.

Byoung-Jin Jeon (Republic of Korea)
Professor
Dept. of Occupational Therapy, Kangwon National University

Empowering lives through OT

A distinctive feature of occupational therapy is that the time available to work with clients is often limited due to constraints within medical, health, and social welfare systems. Therefore, occupational therapy must aim to provide support that ensures sustainability—so that even when the therapist is no longer present, clients can continue to live authentically as themselves.

To achieve this, it is essential to foster empowerment, enabling clients to recognize their own abilities and to problem-solve through trial and error, even in challenging situations. In the field of pediatrics in particular, the therapeutic period is limited, making it crucial to support children in continuing to grow and live true to themselves beyond therapy. Moreover, not only the children but also their families—who live most closely with them—should be considered clients to be empowered.

This lecture will introduce the theoretical background and scientific evidence underpinning client empowerment. By learning from both academic perspectives with a real story of clients, this session will provide an opportunity to reconsider what occupational therapy can truly offer and to appreciate its unique value.

Kayoko Takahashi (Japan)
Managing Director, WFOT 1st Alternate
Japanese Association of Occupational Therapy

Empowering lives of Stroke Survivors

Stroke remains the leading cause of long-term disability in the United States (US), reflecting the reality that the majority of stroke survivors experience chronic symptoms. The medical and rehabilitation services in the US support a biomedical model with the goal of optimizing neuroplasticity and the remediation of impairments in the acute and subacute phase of recovery. However, there is a stark gap in rehabilitation services to adequately address an individual’s transition back into the community and the management of chronic symptoms. One approach to meet the changing needs of individuals living in the community with chronic stroke is the adoption and integration of the chronic care model framework into rehabilitation service delivery. From the perspective of the chronic care model, key goals of therapy would be to optimize patient autonomy and self-management skills. By shifting decision making from the therapist to the patient and prioritizing patient driven goals and lived experience, we can start to facilitate an individual’s ability to transition back into the community.

A general overview of the US healthcare system will be presented and current occupational therapy services delivered within each rehabilitation setting will be discussed. A review of the chronic care model framework will be introduced and followed by examples of self-directed and self-management interventions that reflect key components of the chronic care model.

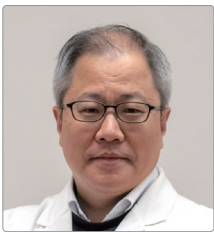

Grace J Kim (USA)
Associate Professor
New York University

Empowering lives within the Integrated Care: ageing and disability

Korea is reforming its rehabilitation care system to navigate a super-aged society and the escalating prevalence of disability intertwined with aging. This paradigm shift adopts a "life-course perspective" and a comprehensive, integrated approach to empower the lives of older people with disability and to manage and prevent late effects for people with disabilities. The restructured system spans acute, post-acute, and chronic phases, incorporating post-acute rehabilitation hospitals with intensive rehabilitation services and home-visit rehabilitation. Central to the new model are the Nationwide Regional Health & Medical Centers for People with Disabilities, which serve a critical role in linking community healthcare and social care systems. These centers provide multidisciplinary services, support Primary Care Physicians for People with Disabilities for comprehensive assessment and home-based care, and facilitate telehealth and telerehabilitation for community-dwelling individuals. The overall goal is to achieve a more comprehensive and integrated model to address the expanding and varying demands for rehabilitation services.

This review discusses ongoing reform of the rehabilitation care delivery system to address the growing demand for care services in a super-aged society and to empower people with disabilities by implementing comprehensive and integrated models that adopt a “life-course perspective.”

Jae-Young Lim (Republic of Korea)
Professor and Chairman
Dept. of Rehabilitation Medicine, Seoul National University College of Medicine

Building health prevention network

The development of health prevention networks in Taiwan has been closely tied to the real stories of individuals empowered through occupational therapy (OT).

1. Challenges of healthy aging

Taiwan faces not only the burden of chronic diseases but also lifestyle-related risks, aging, and social isolation. These challenges demand proactive, prevention-oriented strategies.

2. Attempts since 2017

Since the launch of national initiatives—Programs to Prevent or Delay Disability, occupational therapists have been at the forefront—engaging with local community centers, schools, municipal and national government to create programs as well as system that support the ageing population.

3. Role of occupational therapists

Occupational therapists play a vital role in Taiwan’s prevention network. Their contributions extend from developing programs to prevent or delay disability to hosting activities in community centers that promote healthy aging and social participation. They also serve as consultants for community organizations and local governments, ensuring that interventions are relevant and sustainable. At the broader level, occupational therapists act as policy advisors for the central government, shaping strategies that integrate prevention, rehabilitation, and reablement into national health systems.

Athena Yi-jung Tsai (Taiwan)
Director of Finance
World Federation of Occupational Therapists

4. Unsolved issues.

Several challenges remain unresolved in building a sustainable prevention network. These include the unclear positioning of health promotion interventions, the lack of a comprehensive system supporting outcomes evaluation, the limited development of service models beyond group-based training, and the need for sustainable models of community organization.

5. Road ahead.

The Long-Term Care 3.0 national policy, set to officially launch in 2026, places strong emphasis on “programs to prevent or delay disability” and Reablement. Both of these pillars align directly with the expertise of occupational therapists, positioning OT as a key profession in implementing and advancing the policy’s vision for healthy aging and community-based care. Looking forward, Taiwan must strengthen its prevention networks by integrating OT expertise into public health policies, expanding community-based programs, and fostering global exchange.

Community support in the mental health

Enhancing Community Support in Mental Health Through Modular Occupational Therapy

This presentation introduces an innovative Occupational Therapy Modular Charting System specifically designed to enhance community support for individuals with mental health conditions. Integrating global evidence with Taiwanese regulatory frameworks, this system offers a structured yet person-centered approach to addressing diverse needs beyond traditional clinical settings.

The core of our approach lies in nine key modules, each focusing on a critical life domain where occupational therapists play a pivotal role. The Housing module, for instance, emphasizes OT-led supportive housing, evidenced by RCTs, to significantly improve daily function, community participation, and quality of life for individuals with serious mental illness. The Placement module focuses on skill development for successful transitions from institutional care to community living, particularly for vulnerable populations like children in out-of-home care, using trauma-informed perspectives. Our Employment module champions the Individual Placement and Support (IPS) model, recognizing work as central to recovery and integrating job redesign strategies validated by local research.

Beyond these, modules for Education, Aged Care, Access to Medical Care, Social Participation, and Independent Living are equally vital. They are grounded in evidence ranging from leisure education for social connection to "Self-Reliance Support" models for healthy aging and ADL/IADL skill enhancement. Crucially, the system incorporates Taiwanese research and policy, such as "cultural care" for indigenous populations and the "coaching approach" in family collaboration.

This modular system enables occupational therapists to act as "systemic bridges" (Module 9), developing community-based programs and advocating for clients. By systematizing evidence-based, person-centered interventions across these life domains, we empower individuals with mental health conditions to thrive in their communities, fostering autonomy, meaningful engagement, and overall well-being.

Yuan-Hui Lee (Taiwan)
Executive Director
Pescodorean Association of Caring Elderly & Disabilities (PACED)

Functional Cognition Intervention in Medical Setting

의료환경에서 기능인지 중재

본 발표는 국내 의료 환경에서 작업치료사가 수행하는 기능인지중재(Functional Cognition Intervention)의 실제 적용 사례를 중심으로, 평가-목표설정-중재 실행의 흐름을 소개한다. Dynamic Interactional Model을 기반으로 인지기능과 자기인식, 환경요인을 통합적으로 고려하고, 수행 기반 평가와 작업중심 목표를 바탕으로 적응, 단계화, 전략훈련 등 활동 기반 중재 전략을 적용하였다. 사례를 통해 기능 회복뿐 아니라 실생활 참여 향상에 기여하는 기능인지중재의 임상적 가치와 실천 가능성을 조명하고자 한다.

This presentation introduces the clinical application of Functional Cognition Intervention implemented by occupational therapists in the Korean healthcare context, focusing on the practical process of assessment-goal setting-intervention.

Based on the Dynamic Interactional Model, the approach comprehensively considers cognitive function, self-awareness, and environmental factors, while applying activity-based intervention strategies such as adaptation, task grading, and strategy training, grounded in performance-based assessments and occupation-centered goals.

Through a case example, this presentation highlights the clinical value and practical feasibility of functional cognition intervention—not only in restoring function, but also in enhancing participation in daily life.

Ju-Hee Jeong (Republic of Korea)
Soon Chun Hyang University Hospital Bucheon

Enduring Together in Occupation – Practices and Sustainable Challenges of Stay Strong Together

‘Stay Strong Together’ 캠프를 통한 함께 견디기 및 상호성장

Stay Strong Together (SST) was initiated in 2021 to address the care gaps and social isolation experienced by youth with developmental disabilities and their families during the COVID-19 pandemic. Initially guided by the slogan “enduring together,” SST aimed to provide safe and meaningful occupational participation for youth while offering families opportunities for rest and social connection. From 2021 to 2025, a total of 24 camps were held, involving approximately 315 families and 320 youth with developmental disabilities, supported by occupational therapists and students, approximately 1.7 times the number of youth participants.

This presentation discusses strategies that have enabled SST to evolve from a temporary response into a sustainable model of occupational therapy practice. First, the Participation & Function Check was developed to move beyond program-driven activities toward individualized, occupation-centered support. Based on caregiver reports, this profiling tool allowed detailed identification of personal and physical characteristics, leading to tailored occupational challenges. Second, the Performance & Function Observation framework was applied during camps, enabling professional supervisors to analyze real-time performance levels, address discrepancies between reported and observed outcomes, and ensure stable participation. Third, systematic video documentation and dissemination of outcomes enhanced research value and increased societal visibility. Finally, SST functioned as a practice-based educational platform, supported by the formation of a Headquarters (HQ) team. The HQ team assumed responsibility for supervision and program leadership, ensuring professional quality while creating a structure for succession. By cultivating the growth of participating occupational therapists and students, the HQ system provided a foundation for sustainability and professional development through future research and education.

The experiences of SST demonstrate how occupational therapy provides the invisible force that sustains “ordinary everyday life,” while restoring participation and occupational justice for individuals facing occupational deprivation. This presentation argues that initiatives like SST highlight the need for occupational therapists’ social contributions to combine volunteer spirit with professional responsibility, ensuring sustainability and continued impact.

덴마크 PROTAC – 일상생활에 필요한 감각 자극 보조기기

덴마크 PROTAC 사의 제품들은 발달장애인, 지적장애인의 심리적 안정과 집중력 향상에 도움을 줍니다.

Protac A/S는 모든 제품에 플라스틱 볼을 내장하여 특정 감각 자극을 통해 불안 완화, 집중력 향상, 신체 인식 개선 등의 효과를 제공하는 제품들을 개발하고 있습니다. 특히, 지적장애를 포함한 다양한 발달 장애 및 신경학적 문제(ADHD, 자폐 스펙트럼 장애, 불안 장애 등)를 가진 사람들에게 긍정적인 영향을 미치는 것으로 알려져 있습니다.

주요 제품

Protac SenSit® (감각 자극 의자) | Protac Ball Blanket® (볼 담요)

Protac GroundMe® (감각 자극 발/좌석 쿠션) | Protac MyFit® (감각 자극 조끼)

INMU – 청각과 촉각자극을 이용한 심리 안정 및 집중력 향상 보조기기

덴마크 Inmu touch 사의 INMU는 사용자의 움직임에 따라 자동으로 음악이 재생되는 쿠션 형태의 보조기기로 발달/지적장애인의 일상생활에 긍정적인 도움을 줄 수 있습니다. INMU는 촉각, 청각 등 다양한 감각을 활용하여 사용자에게 안정감과 편안함을 제공하고, 이는 심리적 안정 및 집중력 향상으로 이어질 수 있습니다.

4가지 모델

INMU Relax – 조용하고 차분한 명상음악 | INMU Dance – 빠른 템포의 댄스음악

INMU Joy – 경쾌한 리듬의 음악 | INMU Rhythm – 다양한 리듬의 음악

플랫폼 소개

언제 어디서나 반복 가능한 실재와 같은 실습

AI·메타버스 기반 실습 전문 플랫폼 라온 메타데미는
언제, 어디서나 반복 실습이 가능하고 전문성을 높이는 자격증과
실전 경험이 필요한 필수 실습 분야별 특화 콘텐츠를 제공합니다.

지금 다양한 기능의 라온 메타데미를 만나보세요!

특장점

현실과 가상을 넘나드는
혁신적인 실습 환경 제공
PC·VR을 활용한 몰입형 학습 경험 지원

위변조 방지 블록체인 수료증
제로트러스트 간편인증 모바일 학생증 제공

메타버스 기반 온라인 자격시험의
새로운 기준 AI 부정행위 방지 서비스로
공정성과 신뢰성 강화

개인 맞춤형 AI 코치
AI 챗봇과 튜터의 실시간 피드백으로
학습 효율성 극대화

작업과학이란?

“작업과학(Occupational Science)은 작업, 인간의 작업적 특성, 작업·건강·웰빙 간의 관계,
작업을 형성하는 영향을 이해할 수 있는 사고 방식을 제공하는 학문이다.”

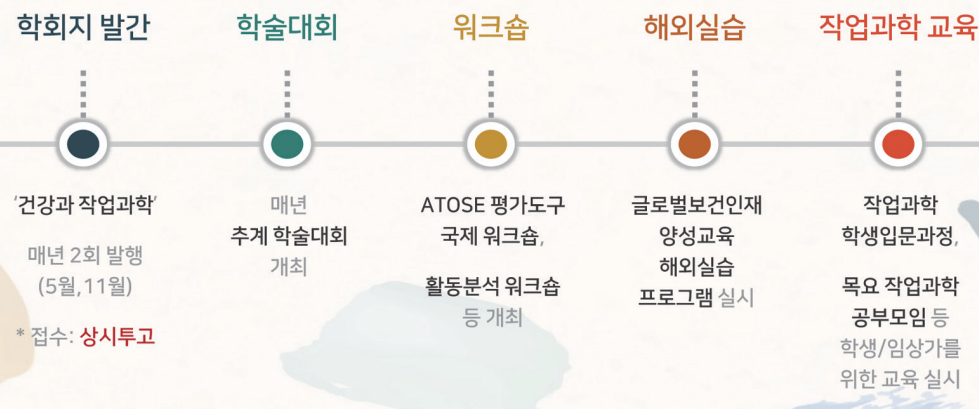

(World Federation of Occupational Therapists, 2012b)

연하장애 전기자극치료기기의 혁신 RS-STIM

순차적 4채널 전기자극기 RS-STIM의 재활치료 효과

- 삼킴기능 점수 2.6배 향상
- 흡인율 2.1배 향상 감소

* J NeuroEngineering Rehabil 2021 (2채널 전기자극기와 비교평가)

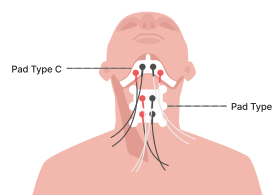

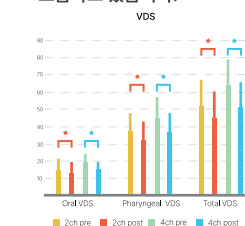

순차적 4채널 전기자극기 RS-STIM의 보상치료 효과

- 삼킴기능 점수 2.9배 향상
- 흡인율 2.3배 향상

* Neurorehabil Neural Repair 2021 (RS-STIM.0의 전/후 비교 평가)

평가유예 신의료기술

- 사용대상: 중추신경계 질환, 뇌기저부 및 두개부 중양 수술환자 중 만 19세 이상의 연하장애 환자
- 인정비급여: 순차적 4채널을 이용한 연하장애 삼킴 기능 전기자극치료
- RS-STIM을 사용한 연하장애 치료는 보건복지부고시 제 2024-44호 기술명 “순차적 4채널을 이용한 연하장애 삼킴 기능 전기자극치료”로 평가유예 신의료기술로 선정되어 전국 상급종합병원부터 점진적으로 보급하고 있습니다.

RS REHAB

Leading the Future of Occupational Therapy Education in Korea

Evaluation of Domestic Education Certification

Using the systematic certification of excellent curricula, we elevate the quality of occupational therapy education in Korea and support the training professional occupational therapists.

Evaluation of WFOT Certification

We expand opportunities for global engagement by providing educational certification that meets international WFOT standards.

Training of Experts in the Evaluation Committee

We train highly qualified certification evaluation experts through a systematic and professional curriculum, and we effectively manage our pool of evaluators.

Research, Development and Quality Management of Educational Programs

We conduct innovative research and development in occupational therapy education to ensure the continuous quality improvement of occupational therapists.

애니멀 테라피

XR 기술을 통해
실제처럼 생생한 강아지와 교감하고,
감정적으로 안정감을 얻을 수 있는
가상 반려견 힐링 서비스!

자세한 내용은
QR코드를 스캔하세요

제품 특징

1. MR(Mixed Reality) 기반 3D 반려견 시뮬레이션
2. 음성 명령 ("앉아", "누워") 및 손짓 인식
3. VR과 달리 주변을 볼 수 있어 고령자도 안심 사용 가능
4. 반려견에게 이름을 지어주고 시설의 반려동물로 삼을 수 있음
5. 반려동물과 함께 활동하면 운동 동기를 부여 가능
6. 강아지를 바라보는 것만으로도 마음이 편안해져 동물 치료와 같은 효과를 기대할 수 있음
7. 기대 효과 : 불안, 우울 완화, 상쾌함 증가 등 심리 치료 효과 검증
8. 반려견 VR 추억 재현 서비스
: 생전에 찍어둔 반려견 사진 제공 시 AI 기술로 해당 반려견의 모습과 움직임을 복원하여 제공

국내 1위 예방적 통합 돌봄서비스

효돌 시케어 플랫폼

인공지능 돌봄 로봇 정서·생활·건강 관리 서비스

다정한 손주 돌봄 로봇이 **어르신과 교감하며** 건강을 관리합니다

할머니, 약 드실 시간이에요!

할아버지, 쓰다듬어 주시니까
기분이 나아갈 것 같아요~

효돌 캐릭터 맞춤형 대화연진	정서 교감 대화 생성형 LLM	360° 5m 감지 레이더 센서
다양한 인지강화 프로그램	대화 및 인터랙션 동시 분석	전화 요청 기능

정서 및 생활 관리

- ✓ 머리를 쓰다듬고 영영이를 토닥이면 7살 손주처럼 반응
- ✓ '효돌야'라고 부르면 다양한 주제로 자유롭게 대화 가능 (최신 생성형 LLM 기반)
- ✓ 설정된 시간에 개인 맞춤형 일과 알람 제공 (식사, 복약, 기상, 취침 등)

맞춤형 건강 관리

- ✓ 하루 2번 수면, 기분, 하루 계획, 통증, 식욕 등 질문
- ✓ 답변 내용 기반 AI 연진 건강관리 리포트 작성
- ✓ 노인성 질환 유형별 건강 코칭 프로그램 제공
